Technical Skills

LANGUAGES AND DATABASES: HTML, CSS, JavaScript, TypeScript, MongoDB(mongoose).

FRAMEWORKS: Express JS, React JS, Redux, Node JS, Next JS, Bootstrap, Tailwind CSS.

TOOLS: Postman, Visual Studio Code, MongoDB Compass, Figma.

VERSION CONTROL: git, GitHub.

MISCELLINEOUS: Next-Auth, OAuth, API Integration, Render, Vercel, Netlify.

Experience

AdEngineers

Dec 2023 – Feb 2024

Frontend Developer

Rawalpindi, Pak

- Developed responsive and interactive **user interfaces** using **HTML, CSS, and JavaScript**, ensuring cross-browser compatibility and performance optimization.
- Collaborated with senior developers to implement modern UI/UX designs and improve website functionality.
- Gained hands-on experience with **version control systems** like **Git**, contributing to project workflows and code management.
- Optimized website components for **mobile-first design using Tailwind CSS** to enhance user experience on small screen devices.
- Assisted in debugging and fixing frontend issues, improving website performance and usability.

Personal Projects

[Learning Management System | ELearning](#) / MERN Stack (Next JS, TypeScript)

Oct 2024 – Nov 2024

- Developed a **full-stack Learning Management System (LMS)** using **MERN Stack, Next.js, and TypeScript**, enabling seamless course management and user authentication.
- Implemented **features** such as dynamic course creation, user dashboards, payment integration, and secure RESTful APIs.

[Twitter-Clone | X-Clone](#) / MERN Stack (jwt authentication, postman, mongoose)

July 2024 – August 2024

- Built a **Twitter Clone** using **MERN Stack** with **JWT-based authentication**, featuring real-time posting, user login/logout, and interactive functionalities like likes and comments.
- Designed a responsive UI and implemented secure RESTful APIs for seamless user experience and data management.

[CareerLinker – A Job Portal](#) / MERN Stack (jwt authentication, postman, mongoose)

July 2024 – August 2024

- Developed a **Job Portal** using **MERN Stack**, enabling job seekers to search, apply for jobs, and manage their applications, while employers can post and manage job listings.
- Integrated secure **JWT-based authentication**, role-based access control, and a responsive UI for an enhanced user experience.

[wellNest – A Design to Website](#) / MERN Stack (jwt authentication, mongoose)

July 2024 – August 2024

- Built **WellNest**, a full-stack website by converting **Figma designs** into a fully functional application with responsive UI and seamless user experience.
- Implemented **authentication features** (signup, login, logout) and integrated email functionality for user communication.

Education

Punjab College of Information Technology, Rawalpindi

Nov 2021 – Dec 2024

Intermediate in Computer Science Percentage=(88%)

Rawalpindi Pakistan

Languages/ Professional Development/ Learning

English, Urdu, Punjabi.

Currently enhancing problem-solving skills by practicing **Data Structures and Algorithms (DSA)** using **C++**.

Learning advanced frontend development with **TypeScript** and **Next.js** to build scalable and efficient web applications.
